

IDENTIFY WEB

IDENTIFICATION COMPLETELY DIGITAL

Identify is a platform to acquire the identities of customers/users/citizens in an easy, convenient, economical and safe way. Easy because all you need is a PC with a webcam and a microphone or a smartphone. Convenient because you can do it anywhere at an agreed time. Economical because those who must acquire identities in the company must not waste time to physically meet the users. Safe because the integrity and authenticity of the data are protected with the best encryption technology available on the market.

WEB IDENTIFICATION EASY AND SAFE.

Digital identity: only online can be verified

IDENTIFY
Web

powered by **Intesi Group**
www.intesigroup.com

IDentify is a platform developed by Intesi Group for the identification via smartphone or PC (if equipped with a webcam and microphone). IDentify Web complies with the AgID and eIDAS requirements for issuing qualified signature certificates.
