

Token migration via IG YOU App - iOS

User guide

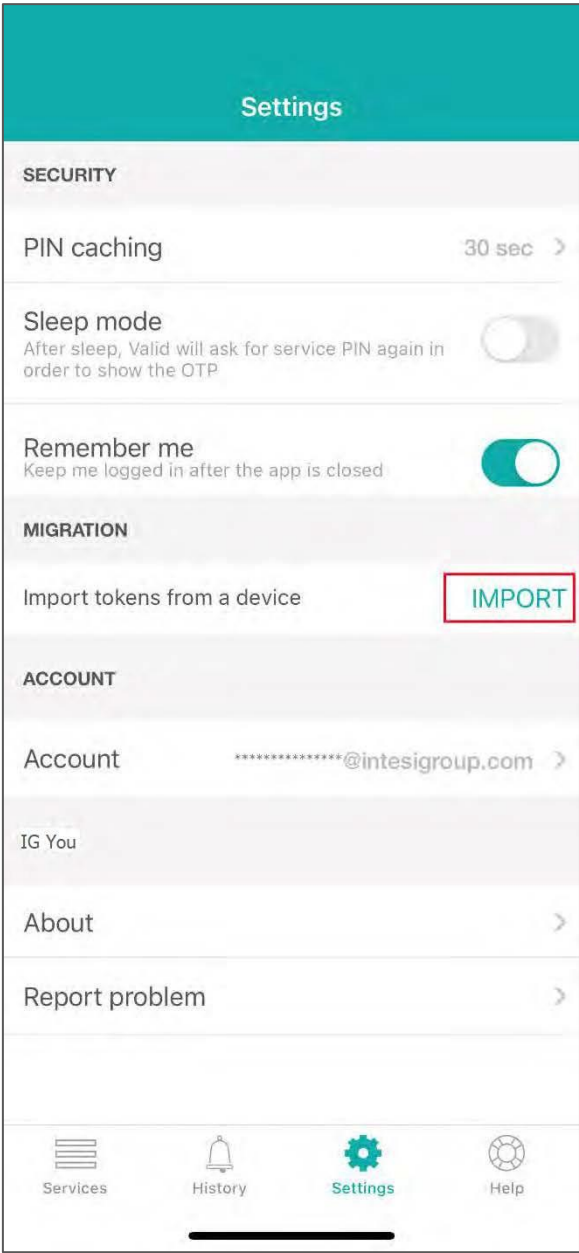

January 2025

Token migration procedure via IG YOU App

When you change your device, you need to migrate your tokens from the old device to the new one. First, download and open the IG YOU mobile App on the new device, then click on the “Settings” button in the bottom menu:

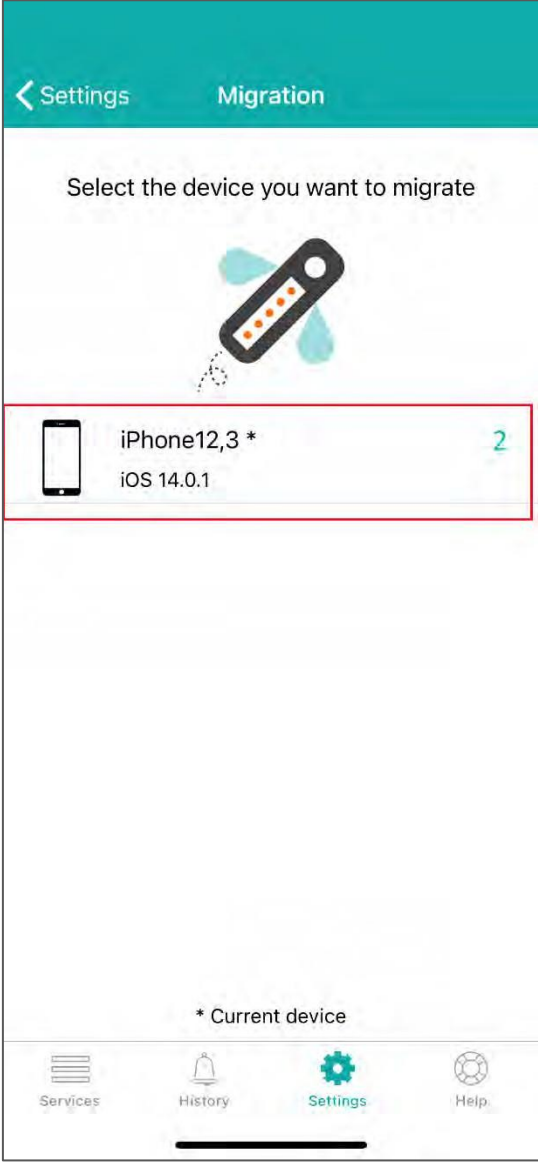

In the Settings page select “Import” under the “Migration” tab :

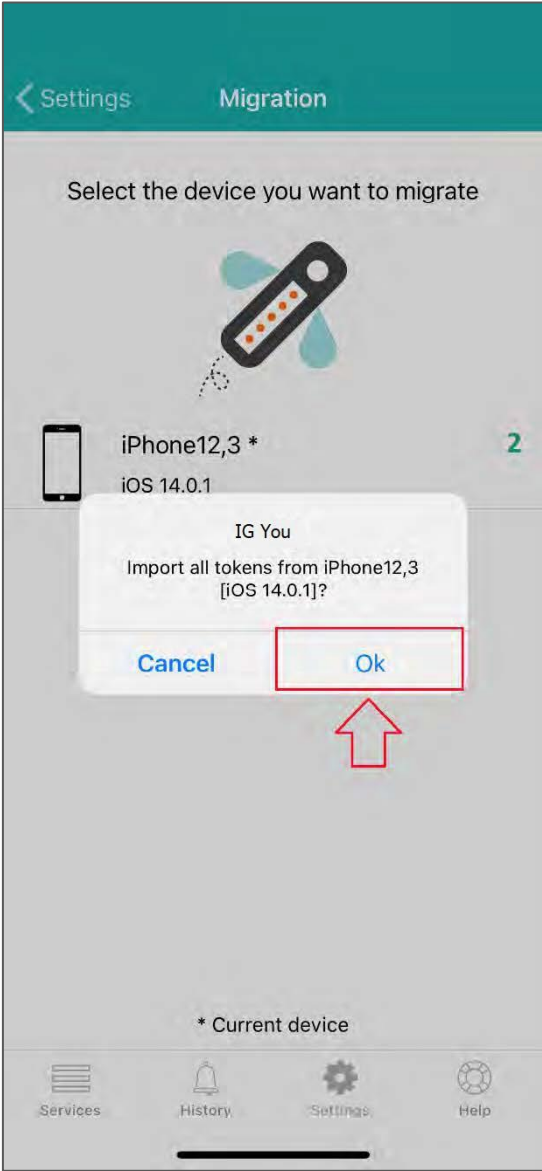

A new page opens, displaying your old device.

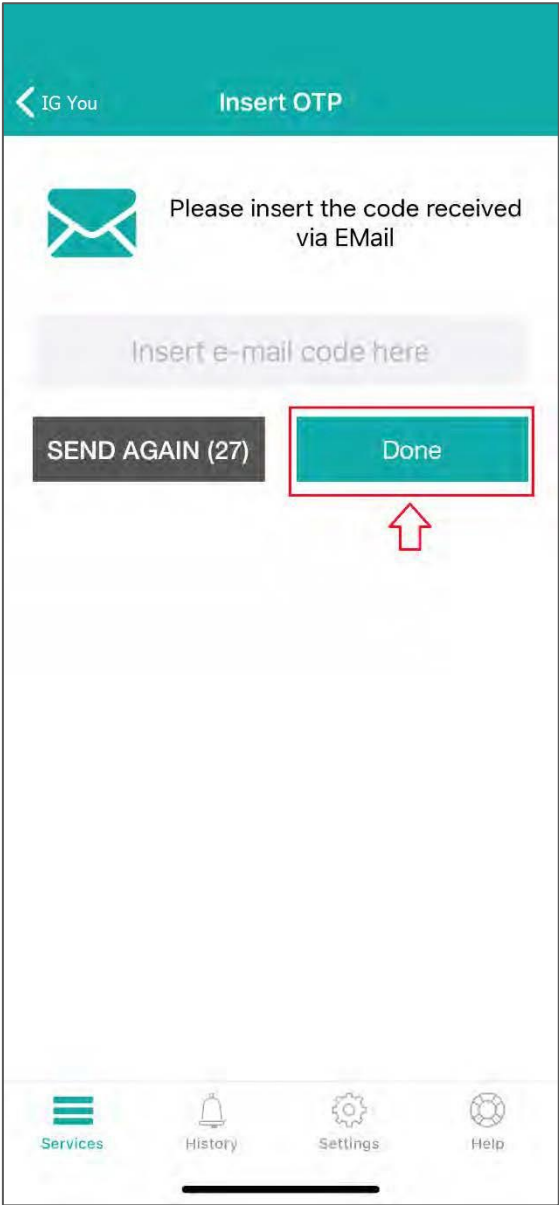

Click on it to migrate the certificates to your new device:

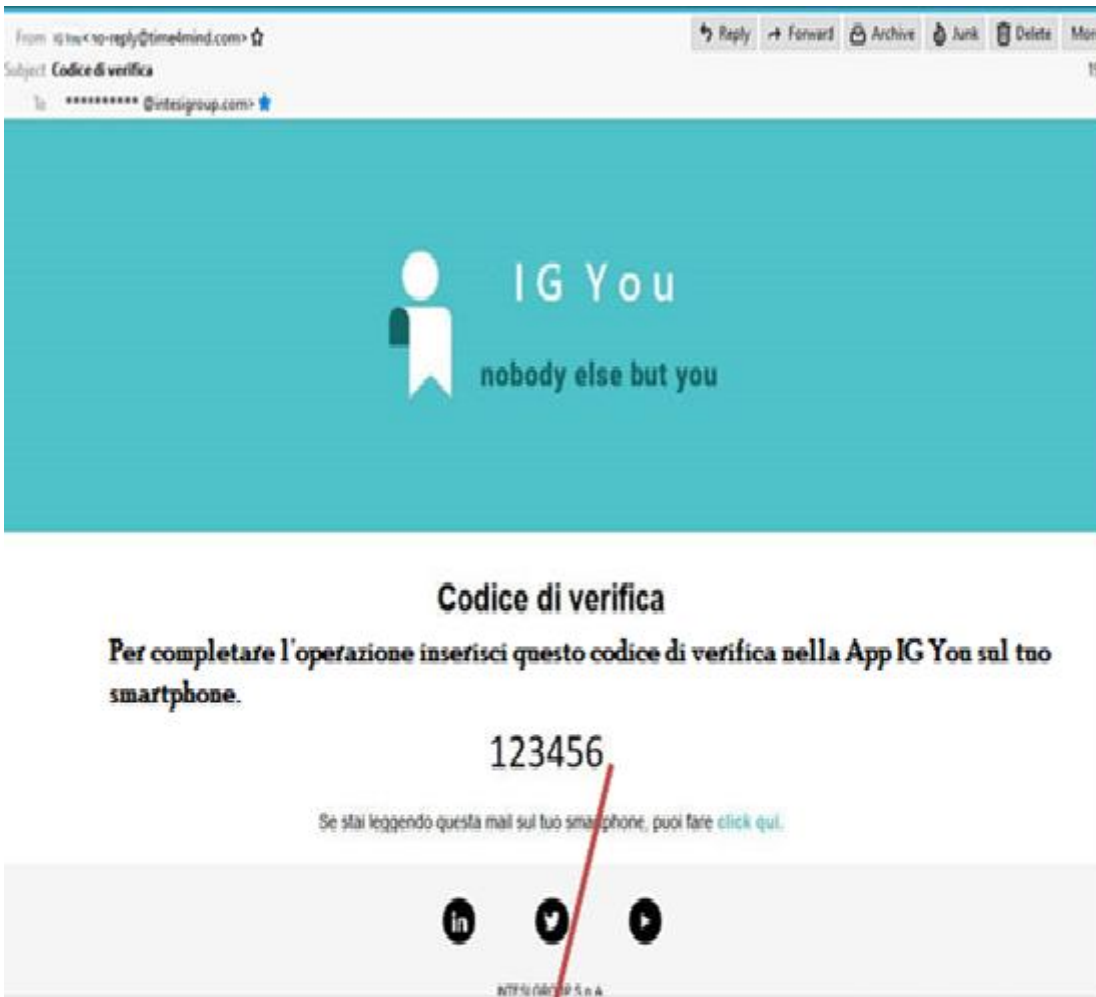

In the open pop-up, click on the “OK” button to start the migration:

By selecting "OK," you will be prompted to enter the OTP code received via email to complete the procedure:

The OTP code received in the following email must be inserted into the app:

Once the OTP is entered, the tokens on the device will be reloaded in the app:
